

Sec 7.40.090 Monuments And Markers

1. Grave markers and foundations will be set only by the monument company according to regulations specified by the City. Except as herein otherwise provided, under no conditions will the City construct monument or marker bases, or erect monuments or markers. The City reserves the right to require the construction of a foundation of such size, material and design as will provide ample insurance against settlement or injury to the stone work. The top of the concrete foundation will be constructed flush with the ground line. Whenever possible, all markers will be set with a four-inch margin.
2. The setting of monuments, stones and markers and the transportation of all tools, materials, etc., within the cemetery ground shall be subject to the supervision and control of the Sexton. Unless special arrangements are made with the Sexton, such work shall be conducted between the hours of 8:00 a.m. and 3:00 p.m., Mondays through Fridays except on national holidays. Heavy trucking will not be permitted within the cemetery when, in the opinion of the Sexton, such work might cause damage. Except when special permission is obtained, all work as outlined above shall be completed and debris removed immediately.
3. The City reserves the right to refuse permission to erect any monument work not in keeping with the good appearance of the grounds. The size of the monument and/or stone work must be given to the Sexton or his agent and approved before said work will be permitted on a grave. All monuments must be set in line with other monuments so far as possible as directed by the Cemetery Sexton or his agent.
4. Stone work or monumental work, once placed on its foundation, shall not be removed, except by permission of the cemetery Sexton.
5. The grave must be paid in full or other assurance given of payment before markers and monument are set.
